STEPS THAT NEIGHBORS COULD COMMIT TO DOING TO HELP OUT!!!!

1. Please call 911 no matter what. Even if you know other people on your block might be calling on a situation, you also need to call as well. The more calls the better!
2. Please email or call Chato or Matt with the same information because of the lag time.
3. Because summer is upon us and people will be hanging out “People need to take control of their block” to let these kids or whomever know that we are not going to put up with you hanging out and putting the rest of us at risk for targets. Whether it is being shot at, or someone shooting, or doing some kind of graffiti, or whatever the case may be we are tired of it and no longer putting up with it!!
4. People need to stay involved and please do not get discouraged because of a bad situation that you think was not right with police or anybody else. This is why we are trying to do the meetings to stay on top of issues that matter or any concerns in our neighborhood negative or positive. I know sometimes it might be hard for people but we need to stick together!!
5. Get to know your officers in your neighborhood to be able to connect with them. Some of them are willing to give their cell numbers if needed. Take advantage of that.

Please if anybody does have any information that can help with a situation in our neighborhood please do contact Chato or Matt with it. As long as these kids are still out there and going against each other we are all still at risk for danger. They need to be caught, so please help that happen if anybody knows anything. This goes for both sides of the line!!

Thank You……..
